

Milton CAT 401(k) Plan

ENROLL NOW TO TAKE FULL ADVANTAGE
OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

YOUR GUIDE TO GETTING STARTED

Save for retirement through Milton CAT 401(k) Plan easily, regularly, and automatically.

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in Milton CAT 401(k) Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

LOOK INSIDE FOR:

- Participating in your plan
- Investment Options
- Next Steps
- Rollover contribution form

Please review this information carefully.

PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the Milton CAT 401(k) Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at www.401k.com, you can take advantage of what your company and Fidelity have to offer.

When am I eligible for the Plan?

You are eligible to participate in the Plan if:

- you are employed by the Employer
- you are at least 18 years old
- and you are not:
 - Employees covered by the collective bargaining agreements between Southworth-Milton, Inc. and Local #25 of the International Brotherhood of Teamsters and Local #447 of the International Association of Machinist and Aerospace Workers or Southworth-Milton, Inc. and Local #106 of the International Union of Operating Engineers in the Clifton Park, NY store, Co-Op Students and Temporary Employees

The Plan does not cover employees who are residents of Puerto Rico.

How do I enroll?

To enroll, log on to Fidelity NetBenefits® at www.401k.com. You can also set up your beneficiary information by going to Fidelity NetBenefits® at www.401k.com or calling a Fidelity Representative at 1-800-835-5097 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Your plan has an automatic enrollment feature. If the automatic enrollment feature applies to you and you do not take action, you will be automatically enrolled at 6%. If the automatic enrollment feature applies to you, you will receive a separate notification indicating when deferrals will begin to be made on your behalf. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the Fidelity Investments target date fund that most closely aligns with your projected retirement date based upon your birth year.

If you would prefer to elect not to participate at

this time or to specifically elect a contribution rate and/or investment options, please contact Fidelity by logging onto www.401k.com or call 1-800-835-5097.

When is my enrollment effective?

Once you satisfy these requirements, you will become eligible to participate in the Plan immediately.

How much can I contribute?

Through automatic payroll deduction, you may contribute between 1% and 90% of your eligible pay on a pretax and/or Roth basis, up to the annual IRS dollar limit (2025 = \$23,500). You may change your deferral percentage as applicable. Any changes made would take effect at the beginning of each payroll period.

Your company's plan has established an Annual Increase Program which will automatically increase your contributions by 1% on October 1. Each year on the designated date, your contributions will increase by the amount your company has established which may be limited to a deferral percentage communicated to you by notice. If you want to contribute more to the Annual Increase Program or if you wish to opt out of the program, follow the instructions outlined in the notification letter.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch-Up Contribution Limit (2025= \$7,500). Starting in 2025, the SECURE 2.0 Act increases the limit for you if you have attained age 60, 61, 62, or 63 in a given calendar year. The limit for 2025 is \$11,250.

Unlike your traditional, pretax 401(k) deferrals,

the Roth 401(k) feature allows you to contribute after-tax dollars, but then withdraw tax-free dollars from your account when you retire, provided the distribution is “qualified.” A qualified distribution is one that is taken after the five taxable year period beginning January 1 of the year for which your first designated Roth contribution to the plan is made (or to a previous plan, if that amount was subsequently rolled over to the distributing plan) AND you turn age 59 ½, become disabled, or die. If you are eligible to make traditional pretax 401(k) contributions, you can also make Roth 401(k) after-tax contributions. Your total contributions to the plan (both Roth 401(k) after-tax deferrals and traditional pretax contributions) cannot exceed IRS limits, or your plan’s limit, if less.

Can I move money from another retirement plan into this one?

You may be permitted to roll over eligible contributions into this Plan from a previous employer’s retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the “Rollovers” section online. ***Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.***

Does the Company contribute to my account?

The Employer will make a matching contribution to only those participants who are eligible under the terms of the plan, who make deferral contributions. Please refer to your employer or Summary Plan Description for more detailed information.

Union employees should refer to the Summary Plan Description for details related to the matching contribution formula.

For purposes of determining your matching contributions under the Plan, your deferral contributions will not include Age 50 and over Catch-Up Contributions described above.

Your Employer may designate all or a portion of any matching contributions for a Plan Year as “qualified matching contributions” and allocate them to employees to help the Plan pass one or more annually required Internal Revenue Code nondiscrimination test(s). Any such contributions

will be allocated to those non-highly compensated Participants eligible to receive the Employer matching contributions described above who made deferral contributions during the Plan Year. Participants are 100% vested in these contributions and may not request a hardship withdrawal of these contributions.

When am I vested?

The term “vesting” refers to the portion of your account balance that you are entitled to under the plan’s rules.

You are always 100% vested in your:

- employee pretax account
- Employer matching contribution account
- rollover account
- Roth 401(k) after-tax deferral account
- and any earnings thereon.

Can I take a loan from my account?

Although your plan account is intended for your retirement, you may take a loan from your account.

Can I make withdrawals from my account?

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, as a Required Minimum Distribution (RMD), or death. You may also be eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

How do I access my account?

Within NetBenefits® you have access to your account information, retirement planning tools, and e-Learning workshops® that provide you access to self-paced training on savings and investing principles.

You may call the Retirement Benefits Line at 1-800-835-5097 between 8:30 a.m. and 8:00 p.m. on any business day when the New York Stock Exchange is open. Fidelity Representatives can assist you with transactions and answer many of your questions regarding retirement savings.

How do I learn more?

Within NetBenefits®, you have access to your account information and retirement planning tools including:

- **Live and self-paced learning workshops.**
The workshops cover a variety of topics

including determining your retirement savings needs, evaluating your investment options and keeping your investment strategy on track to help you achieve your retirement goals.

In addition, you can take advantage of local Investor Centers by scheduling time with a Fidelity Representative to discuss your total investment needs beyond your retirement savings plan. Or, if you prefer, call 1-800-Fidelity for a complimentary portfolio review.

How do I change my investment options?

You can make changes to your investment selections within NetBenefits® or by calling the Retirement Benefits Line at 1-800-835-5097.

Create an asset strategy that's right for you:

- Visit the Learn section within NetBenefits®

How do I manage my account?

Within NetBenefits®, you may sign up to receive alerts via email when your retirement savings account strays from the investment allocation you established.

To update your beneficiary information, go to the Profile section within NetBenefits® and enter your beneficiary information at any time.

Fidelity® Personalized Planning & Advice is a retirement goal based managed account service with a team of portfolio managers who manage the investments in your workplace savings plan account. Based on your unique needs and goals, our team of professionals will create a plan that considers your total financial situation, put the plan into action, and work for you putting in the time, resources, and knowledge needed to keep you on track for retirement.

This includes:

- Regularly monitoring and rebalancing of your account through market up and downs
- Strategy refinement that supports you as your financial situation evolves
- Quarterly check-ins, which include your progress toward key milestones
- Personal planning dashboard that includes progress to retirement and other profile details

To see if Personalized Planning & Advice is right for you, talk to one of our financial representatives at 866-811-6041.

Fidelity® Personalized Planning & Advice *at Work* is a service of Fidelity Personal and Workplace Advisors LLC and Strategic Advisers LLC. Both are registered investment advisers, are Fidelity Investments companies and may be referred to as "Fidelity," "we," or "our" within. For more information, refer to the Terms and Conditions.

When used herein, Fidelity® Personalized Planning & Advice refers exclusively to Fidelity Personalized Planning & Advice *at Work*. **This service provides advisory services for a fee.**

INVESTMENT options

Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the investment options available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at www.401k.com for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the date indicated. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

Exchanges from the Managed Income Portfolio* to certain bond or money market funds (considered "competing funds"), must first be exchanged to an option that is "non-competing," such as an equity mutual fund. After 90 days, you can then exchange to a "competing fund". Please contact your Plan Administrator or a Fidelity Representative at 1-800-835-5097 for more information.

*The Managed Income Portfolio is not a mutual fund, but is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans. It is managed by Fidelity Management Trust Company.

ADDITIONAL INVESTMENT **options:**

Target Date funds offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Investment Options to the left have potentially more inflation risk and less investment risk		Investment Options to the right have potentially less inflation risk and more investment risk
Fidelity Freedom® Income Fund Class K6	Fidelity Freedom® 2030 Fund Class K6	Fidelity Freedom® 2045 Fund Class K6

Fidelity Freedom® 2025 Fund Class K6		Fidelity Freedom® 2065 Fund Class K6
		Fidelity Freedom® 2070 Fund - Class K6

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

NEXT **steps**

Investing in yourself is easy with your retirement plan. You can count on us to support you every step of the way with our account management website, Fidelity NetBenefits®. First log in to www.401k.com and we'll show you how to get started step by step.

Step 1: Enroll online today. Go to www.401k.com and click on "Register Now" when logging in for the first time. Follow the instructions to enroll online. Call the Retirement Benefits Line if you need assistance at 1-800-835-5097.

Step 2: Decide how much to invest and enter your contribution per pay period.

Step 3: Select how you want to invest your contributions among the investment options available in the plan. Investment performance and fund descriptions are available online or over the phone. If you are interested in additional information about investing, go to the NetBenefits® Library to learn more.

Enroll today, and start saving for your retirement.

DESCRIPTIONS OF INVESTMENT **options**

STABLE VALUE FUNDS

**Managed Income
Portfolio Class 2
3704**

Gross Expense Ratio: 0.49 as of 09/30/2023

Objective:

The fund seeks to preserve your principal investment while earning a level of interest income that is consistent with principal preservation. The fund seeks to maintain a stable net asset value (NAV) of \$1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate.

Strategy:

The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. Fidelity Management Trust Company, as investment manager and trustee of the Fidelity Group Trust for Employee Benefit Plans, has claimed an exemption from registration under the Commodity Exchange Act and is not subject to registration or regulation under the Act. At the time of purchase, all Contracts and securities purchased for the fund must satisfy the credit quality standards specified in the Declaration of Separate Fund .

Risk:

The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain

restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance. Certain investment options offered by your plan (e.g., money market funds, short term bond funds, certain asset allocation/lifecycle funds and brokerage window) may be deemed by the Contract issuers to "compete" with this fund. The terms of the Contracts prohibit you from making a direct exchange from this fund to such competing funds. Instead, you must first exchange to a non-competing fund for 90 days. While these requirements may seem restrictive, they are imposed by the Contract issuers as a condition for the issuer's promise to pay certain withdrawals and exchanges at book value.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

Footnotes:

The investment option is a stable value fund. It is managed by Fidelity Management Trust Company. This description is only intended to provide a brief overview of the fund.

This fund is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans. Only qualified, participant-directed, defined contribution plans may invest in the fund.

This investment option is not a mutual fund.

On February 6, 2013, an initial offering of the Managed Income Portfolio Class 2 took place. Returns and expenses prior to that date are those of the Managed Income Portfolio Class 1. Had class 2 expenses been reflected in the returns shown, total returns would have been higher.

Management Fee includes the costs associated with managing the investments in the pool. The management fee does not include the wrap contract fees, which are paid to third party wrap providers and do not result in any additional compensation to Fidelity. The wrap contract fees are not separately stated but are included in the Expense Ratio and do reduce returns.

Expense Ratio (Gross) includes management and wrap contract fees. For certain investments, it may also include distribution fees. Please note that the Gross and Net Expense Ratio are the same for this investment.

Short-term Redemption Fee Notes:

None

BOND FUNDS

**Fidelity® Investment
Grade Bond Fund
0026**

Gross Expense Ratio: 0.44 as of 10/30/2024

Objective:

Seeks a high level of current income.

**Fidelity® U.S. Bond
Index Fund
2326**

Strategy:

Normally investing at least 80% of assets in investment-grade debt securities (those of medium and high quality) of all types and repurchase agreements for those securities. Investing in lower-quality debt securities. Engaging in transactions that have a leveraging effect on the fund.

Risk:

Fixed income investments entail interest rate risk (as interest rates rise bond prices usually fall), the risk of issuer default, issuer credit risk and inflation risk. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. Lower-quality bonds can be more volatile and have greater risk of default than higher-quality bonds. Leverage can increase market exposure and magnify investment risk.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.025 as of 10/30/2024

Objective:

Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg U.S. Aggregate Bond Index.

Strategy:

Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

Risk:

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest

rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.

Duration is a measure of a security's price sensitivity to changes in interest rates. Duration differs from maturity in that it considers a security's interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

None

**TCW MetWest Total
Return Bond Fund Plan
Class
OU8E**

Gross Expense Ratio: 0.37 as of 07/29/2024

Objective:

The investment seeks to maximize long-term total return.

Strategy:

The fund pursues its objective by investing, under normal circumstances, at least 80% of its net assets in investment grade fixed income securities or unrated securities determined by the Adviser to be of comparable quality. Up to 20% of the fund's net assets may be invested in securities rated below investment grade or unrated securities determined by the Adviser to be of comparable quality. The fund also invests at least 80% of its net assets, plus any borrowings for investment purposes in fixed income securities it regards as bonds.

**Risk:**

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 07/29/2011. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 03/31/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

As of 08/07/2024, Fidelity was notified this fund changed its name from Metropolitan West Total Return Bond Fund Plan Class. See the fund's prospectus for any additional details.

Short-term Redemption Fee Notes:

None

DOMESTIC EQUITY FUNDS

**Baird Mid Cap Growth
Fund Institutional Class
OK10**

Gross Expense Ratio: 0.82 as of 05/01/2024

Objective:

The investment seeks long-term growth of capital.

**Fidelity® 500 Index
Fund
2328**

Strategy:

The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in the equity securities of U.S. and foreign mid-capitalization companies, principally common stocks, preferred stocks, securities convertible into common stocks and American Depositary Receipts ("ADRs") that are traded on major U.S. exchanges. Although the fund principally invests in U.S. companies, the fund may invest up to 15% of its total assets in equity securities (consisting of common stocks, ordinary shares and ADRs) of foreign companies.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.015 as of 04/29/2024

Objective:

Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

Strategy:

Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.

- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.035 as of 04/29/2024

Objective:

Seeks to provide investment results that correspond to the total return stocks of mid- to small-capitalization United States companies.

Strategy:

Normally investing at least 80% of assets in common stocks included in the Dow Jones U.S. Completion Total Stock Market Index, which represents the performance of stocks of mid- to small-capitalization U.S. companies.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Investments in smaller companies may involve greater risks than those in larger, more well known companies.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Dow Jones U.S. Completion Total Stock Market Index is an unmanaged index that represents all U.S. equity issues with readily available prices, excluding components of the S&P 500.

Returns prior to September 8, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

Short-term Redemption Fee Notes:

None

**Fidelity® Extended
Market Index Fund
2365**

**Fidelity® Growth
Company K6 Fund
3458**

Gross Expense Ratio: 0.45 as of 01/29/2024

Objective:

Seeks capital appreciation.

Strategy:

Normally investing primarily in common stocks. Investing in companies that Fidelity Management & Research Company LLC (FMR) believes have above-average growth potential (stocks of these companies are often called "growth" stocks). Investing in domestic and foreign issuers. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Growth stocks can perform differently from the market as a whole and other types of stocks and can be more volatile than other types of stocks. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

**Fidelity® Low-Priced
Stock K6 Fund
2955**

Gross Expense Ratio: 0.5 as of 09/28/2024

Objective:

Seeks capital appreciation.

Strategy:

Normally investing primarily in common stocks. Normally investing at least 80% of assets in low-priced stocks (those priced at or below \$35 per share or with an earnings yield at or above the median for the Russell 2000 Index), which can lead to investments in small and medium-sized companies. Earnings yield represents a stock's earnings per share for the most recent 12-months divided by current price per share. Potentially investing in stocks not considered low-priced. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Fidelity® Value Fund
Class K
2102

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. The value of securities of smaller issuers can be more volatile than that of larger issuers.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.73 as of 12/30/2024

Objective:

Seeks capital appreciation.

Strategy:

Investing in securities of companies that possess valuable fixed assets or that FMR believes are undervalued in the marketplace in relation to factors such as assets, earnings, or growth potential (stocks of these companies are often called "value" stocks). Normally investing primarily in common stocks.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Invesco Main Street
Small Cap Fund Class
R6
OLN5**

On May 9, 2008, an initial offering of the retirement (K) class took place. Returns and expenses prior to that date are those of the non-K, non-advisor class. Had K class expenses been reflected in the returns shown, total returns would have been higher.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.71 as of 04/26/2024

Objective:

The investment seeks capital appreciation.

Strategy:

The fund normally invests at least 80% of its net assets, including any borrowings for investment purposes, in securities of "small-cap" companies. The fund's manager considers a small-cap company to be one that has a market capitalization in the range of market capitalizations of the largest and smallest capitalized companies included in the Russell 2000® Index. The fund primarily invests in common stock but may also invest in other types of securities that are consistent with its investment objective.

Risk:

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the generally greater volatility of investments in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000® Index is an unmanaged market capitalization-weighted index of 2,000 small company stocks of U.S. domiciled companies.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.45 as of 12/29/2023

Objective:

The investment seeks capital appreciation.

**MFS Value Fund Class
R6
OU4M**

**Strategy:**

The fund normally invests the fund's assets primarily in equity securities. Equity securities include common stocks and other securities that represent an ownership interest (or right to acquire an ownership interest) in a company or other issuer. MFS focuses on investing the fund's assets in the stocks of companies the advisor believes are undervalued compared to their perceived worth (value companies).

Risk:

Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with the volatility of large-cap stocks and value-style investments.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 05/01/2006. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/02/1996, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

**T. Rowe Price Blue Chip
Growth Fund I Class
OIIN**

Gross Expense Ratio: 0.58 as of 05/01/2024

Objective:

The investment seeks long-term capital growth; income is a secondary objective.

Strategy:

The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of large and medium-sized blue chip growth companies. It focuses on companies with leading market positions, seasoned management, and strong financial fundamentals. The fund is non-diversified.

Risk:

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

None

INTERNATIONAL/GLOBAL FUNDS

**Columbia Acorn
International Fund
Institutional 3 Class
OK1U**

Gross Expense Ratio: 1.02 as of 05/01/2024

Objective:

The investment seeks long-term capital appreciation.

Strategy:

Under normal circumstances, the fund invests a majority of its net assets in the common stock of small- and mid-sized companies with market capitalizations generally in the range of market capitalizations in the MSCI ACWI ex USA SMID Cap Growth Index (Net), the fund's primary benchmark, (the index) at the time of purchase.

Risk:

Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other

developments. Additional risk information for this product may be found in the prospectus or other product materials, if available.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments in smaller companies, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated both with investing overseas and with investing in smaller companies.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

MSCI ACWI (All Country World Index) ex USA SMID Cap Growth Index is a market capitalization-weighted index designed to measure the investable equity market performance for global investors of small and midcap growth stocks in developed and emerging markets, excluding the United States.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/08/2012. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/23/1992, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.6 as of 12/30/2024

Objective:

Seeks capital growth.

Strategy:

Normally investing primarily in non- U.S. securities. Normally investing primarily in common stocks. Allocating investments across different countries and regions. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Fidelity® Diversified
International K6 Fund
2947

**Fidelity® Total
International Index
Fund
2834**

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.06 as of 12/30/2024

Objective:

Seeks to provide investment results that correspond to the total return of foreign developed and emerging stock markets.

Strategy:

Normally investing at least 80% of assets in securities included in the MSCI ACWI (All Country World Index) ex USA Investable Market Index and in depository receipts representing securities included in the index. The MSCI ACWI (All Country World Index) ex USA Investable Market Index is a market capitalization-weighted index designed to measure the investable equity market performance for global investors of large, mid, and small-cap stocks in developed and emerging markets, excluding the U.S. Using statistical sampling techniques based on such factors as capitalization, industry exposures, dividend yield, price/earnings (P/E) ratio, price/book (P/B) ratio, earnings growth, country weightings, and the effect of foreign taxes to attempt to replicate the returns of the MSCI ACWI (All Country World Index) ex USA Investable Market Index. Lending securities to earn income for the fund.

Risk:

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks, all of which are magnified in emerging markets. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Fund and index performance may vary somewhat due to factors such as transaction costs, sample selection, and timing differences associated with index additions and deletions.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking to complement a portfolio of domestic investments with international investments, which can behave differently.
- Someone who is willing to accept the higher degree of risk associated with investing overseas.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The MSCI ACWI ex-US Investable Market Index represents approximately 99% of the world's total market capitalization outside the US. The ACWI ex US IMI defines the non-US equity asset class and covers 22 developed markets and 22 emerging markets. The IMI (Investable Market Index) combines large, mid & small capitalization equity offerings and thus, provides the broadest international exposure available. The index is unmanaged and should not be considered an investment. It is not possible to invest directly in an index.

Short-term Redemption Fee Notes:

None

TARGET DATE FUNDS

Fidelity Freedom® 2010 **Gross Expense Ratio:** 0.25 as of 05/30/2024

Fund Class K6

2990

Objective:

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65. Investing in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Income Fund approximately 10 to 19 years after the target year. Ultimately, the fund will merge with the Freedom Income Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of investors. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income

at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

On June 7, 2017, an initial offering of the Fidelity Freedom K6 class took place. Returns and expenses prior to that date are those of the Freedom (retail) class. Had K6 class expenses been reflected in the returns shown, total returns would have been higher.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.4 as of 05/30/2024

Objective:

Seeks high total return until its target retirement date. Thereafter, the fund's objective will be to seek high current income and, as a secondary objective, capital appreciation.

Strategy:

Designed for investors who anticipate retiring in or within a few years of the fund's target retirement year at or around age 65. Investing in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a "neutral" asset allocation strategy that adjusts over time until it reaches an allocation similar to that of the Freedom Income Fund approximately 10 to 19 years after the target year. Ultimately, the fund will merge with the Freedom Income Fund. Fidelity Management & Research Company LLC (the Adviser) may modify the fund's neutral asset allocations from time to time when in the interests of investors. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

Investment performance of the Fidelity Freedom Fund products depends on the performance of the underlying investment options and on the proportion of the assets invested in each underlying investment option. The investment risk of each Fidelity Freedom Fund changes over time as its asset allocation changes. These risks are subject to the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The funds are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, commodity-linked and foreign securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

On June 7, 2017, an initial offering of the Fidelity Freedom K6 class took place. Returns and expenses prior to that date are those of the Freedom (retail) class. Had K6 class expenses been reflected in the returns shown, total returns would have been higher.

Short-term Redemption Fee Notes:

Who may want to invest:

- Someone who is seeking an investment option that gradually becomes more conservative over time and who is willing to accept the volatility of the markets.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

Short-term Redemption Fee Notes:

None

Gross Expense Ratio: 0.24 as of 05/30/2024

Objective:

Seeks high current income and, as a secondary objective, capital appreciation.

Strategy:

Investing in a combination of Fidelity U.S. equity funds, international equity funds, bond funds, and short-term funds (underlying Fidelity funds). Allocating assets among underlying Fidelity funds according to a stable "neutral" asset allocation strategy (approximately 11% in domestic U.S. equity funds, 8% in international equity funds, 43% in U.S. investment grade bond funds, 5% in international bond funds, 3% in long-term treasury bond funds, 20% in inflation-protected bond funds, and 10% in short-term funds) The Adviser may

modify the fund's neutral asset allocations from time to time when in the interests of shareholders. Buying and selling futures contracts (both long and short positions) in an effort to manage cash flows efficiently, remain fully invested, or facilitate asset allocation. Through an active asset allocation strategy, the Adviser may increase or decrease asset class exposures relative to the neutral asset allocations by up to 10 percentage points for equity, bond and short-term funds to reflect the Adviser's market outlook, which is primarily focused on the intermediate term.

Risk:

The fund is subject to risks resulting from the asset allocation decisions of the Investment Adviser. Pursuant to the Adviser's ability to use an active asset allocation strategy, investors may be subject to a different risk profile compared to the fund's neutral asset allocation strategy shown in its glide path. The fund is subject to the volatility of the financial markets, including that of equity and fixed income investments. Fixed income investments entail issuer default and credit risk, inflation risk, and interest rate risk (as interest rates rise, bond prices usually fall and vice versa). This effect is usually more pronounced for longer-term securities. Leverage can increase market exposure, magnify investment risks, and cause losses to be realized more quickly. No target date fund is considered a complete retirement program and there is no guarantee any single fund will provide sufficient retirement income at or through retirement. Principal invested is not guaranteed at any time, including at or after the funds' target dates.

Short-term Redemption Fee: 0.00

Who may want to invest:

- Someone who is seeking an investment option intended for people in retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option and looking primarily for the potential for income and, secondarily, for share-price appreciation.

Footnotes:

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

On June 7, 2017, an initial offering of the Fidelity Freedom K6 class took place. Returns and expenses prior to that date are those of the Freedom (retail) class. Had K6 class expenses been reflected in the returns shown, total returns would have been higher.

Short-term Redemption Fee Notes:

None

Plan Name (i.e., "the Plan"): Milton CAT 401(k) Plan

Plan#: 40738

Incoming Rollover Instructions

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. **Please Note:** Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

Step 1. Request your distribution

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed.

- The check should be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.

Step 2. Initiate your rollover request

Please log on to www.401k.com to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at www.401k.com to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

Step 3. Mail the information

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

FIRST CLASS MAIL WITH STAMP:

Fidelity Investments Client Service Operations
P.O. Box 770003 Cincinnati, OH 45277-0065

Overnight Address:

Fidelity Investments
Client Service Operations (KC1F-L)
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at www.401k.com to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Plan Name (i.e. the Plan): Milton CAT 401(k) Plan

Incoming Rollover Contribution Application

Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up

Social Security #:

Hire Date: ____/____/____ Birth Date: ____/____/____

Participant Name (first, MI, last): _____

Participant Address: _____

City: _____ State: _____ ZIP: _____

Phone (day): _____ Phone (evening): _____

Section Two: Rollover Contribution Information

Acceptable rollover funds

The Plan will accept taxable* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

***Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.**

Please note: Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Unacceptable rollover sources

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or Required Minimum Distributions (RMDs). Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

Section Three: Investment Elections

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

Section Four: Participant Certification

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.

This page intentionally left blank.

This page intentionally left blank.

This information provides only a summary of the main features of the Milton CAT 401(k) Plan, and the Plan document will govern in the event of any discrepancy.

A mutual fund expense ratio is the total annual fund or class operating expenses (before waivers or reimbursements) paid by the fund and stated as a percentage of the fund's total net assets. For other types of investments, the figure in the expense ratio field reflects similar information, but may have been calculated differently than for mutual funds. Mutual fund data comes from the fund's prospectus. For non-mutual fund investment options, the information has been provided by the plan sponsor, the investment option's manager, or the trustee. When no ratio is shown for these options, it is because none was available. There may be fees and expenses associated with the investment option. Expense information changes periodically. Please consult [NetBenefits.com](https://www.fidelity.com/NetBenefits.com) for updates.

The Plan is intended to be a participant-directed plan as described in Section 404(c) of ERISA, which means that fiduciaries of the Plan are ordinarily relieved of liability for any losses that are the direct and necessary result of investment instructions given by a participant or beneficiary.

Fidelity retail products and services are offered separately from your employer-sponsored retirement plan.
